"The Universal Healing Program is exactly that - a program from which healing spreads universally, beyond the limits of space and time, because it deals not only with the physical but also with the infinite, spiritual nature of human beings. This means that what you do in India is therapeutic for everyone, everywhere. At a painful moment in history, in which divisions seem to erupt on every hand, the unity and oneness emanating from the Universal Healing Program is of immense importance".

"Our world is in desperate need of a collective sense of unity and cooperation, not division and competition. The UHP program fosters this development in its participants, raising our concept of health beyond the individual to the planetary level. In other words, the UHP program is an asset for the survival of the human species, and deserves the support of every thoughtful, caring person."
